Good to KNOW

Short answers to common questions.

Is my data safe?

Your records are saved in your own WaveBill account. Issued documents are locked and cannot be changed. You can export a backup any time. Only people you invite for stock can see the stock register, and nothing else.

Does it work offline?

No. WaveBill needs internet to save and load your records. You can install it on your phone like an app, and bill from the shop, the road or home.

Can I cancel or delete my account?

Yes. You can stop any time. A paid plan is not renewed unless you pay for a new year. You can delete your account yourself from account settings. Export a backup first.

Does WaveBill file my GST return?

No. WaveBill makes the documents with the tax calculated from what you enter. Filing stays with you and your CA. Ask your accountant to review your records.

Do I get help to learn it?

Yes. There are 21 short how-to videos in English, Hindi and Bangla inside the app, plus a manual and FAQ. A welcome email greets every new sign-up.

What does it cost?

Free to start: 50 invoices or 15 days, whichever ends first. Classic is Rs 999 per year + 18% GST. Pro is Rs 1,799 per year + 18% GST. Plans run one year from activation.
